Your Property's Current Value Assessment

The Municipal Property Assessment Corporation (MPAC) is responsible for accurately valuing and classifying properties in Ontario. The assessed value of your property is used as the basis for calculating your property taxes.

2012 was a re-assessment year. Property Assessment Notices were issued by MPAC showing the assessed value of your property based on a valuation date of January 1, 2012. This assessed value will be used to calculate your property taxes for the years 2013 to 2016, with assessment increases being phased in equally over these 4 years.

The Municipality is not responsible for assessing property value and is not authorized to make changes to any property assessments. Should you have any questions regarding your property's assessed value, please contact MPAC toll free at 1-866-296-6722, the North Bay office at (705) 474-4553 or on-line at www.mpac.ca.

How to calculate your 2016 property taxes:

On residential property with a phased-in current value assessment (CVA) of \$100,000, property taxes would be calculated as follows:

(phased-in cva x total tax rate) = property taxes due for the year

(i.e. \$100,000 x 0.00981008) = \$981.01

or

\$981.01 per \$100,000 of assessment
