

Ad Astra Stables

Ad Astra Stables opened on April 1st, 2019 at 1119 Quae Quae Road with a dream and passion to deliver a top quality, proven equine assisted curriculum that creates longstanding learning and inspires others to be better partners, better people, and better leaders. The stables are located in a calm, serene environment on the shores of Lake Nosbonsing. Robert and Larissa Brown have lived all over the world before moving to Corbeil in 2014; Rob with the Canadian Armed Forces (CAF) and Larissa as a professional horseperson. The couple believes East Ferris to be the healthiest, most beautiful and calmest environment to live and thrive.

Ad Astra Stables is unique in that Larissa and Robert are RCAF Veterans impacted by mental health challenges that include PTSD. Ad Astra Stables graciously provides programming at no cost for first responders affected by PTSD, in order to give back to their military family and community first responders. They are happy to host your corporate team or group for a unique and engaging team building session. Ad Astra Stable also provides programing for Women's Empowerment Sessions, and weekend getaways. Contact them for more details.

Congratulations on your first full year in business!
