

## KRMT Wellness Studio

Whether you're looking for a new hair style, spa services, a relaxing massage or a beneficial yoga session, KRMT Wellness Studio has you covered.

Brandy Labonte moved to East Ferris from a small, rural area with a vision to provide quality health and wellness services with experienced staff and a hometown feel.

2020 marks the 2nd anniversary of the Wellness Studio in East Ferris and Brandy Labonte, never stops dreaming of and striving for additional possibilities to improve on an already great business. Since its inception, Brandy has worked hard to reach capacity of what her beautiful building has to offer, retaining the services of 2 additional Registered Massage Therapists, an Esthetician, a Hair Stylist and an additional Yoga Instructor. Brandy assures us that although her space may now be limited, she will continue to grow and change, and looks forward to offering new exercise classes in the near future.

We asked Brandy what her advice would be for new business owners looking to startup in East Ferris, "Business is here! It's part vision, part passion and part crazy, but it's all worth it! Take the leap of faith, you won't regret it".
