

## King's Framing & Art Gallery

Did you know that hidden among the trees in Corbeil, there is an expansive Framing and Art Gallery? Bob and Lise King started their business in 2008, and haven't stopped growing since. They have recently expanded their shop to include a modern classroom designed specifically for their students. From storefront services to classes and everything in between, if you require supplies to fill your creative needs, King's Framing & Art Gallery has you covered. The in stock items are endless and much of their stock isn't available anywhere else in Canada. King's Framing & Art Gallery also fulfills online orders to clients worldwide.

As a former sheet metal worker, Bob is a natural at professional framing, meticulously framing each art piece that his partner Lise created. We asked Lise her favourite art medium, and she couldn't choose one. Instead, Lise told us that drawing is the foundation to any medium. "Learn to draw, and you will grow. If you have the desire, I guarantee that I can teach you".

The future looks bright for King's Framing & Art Gallery, imagining themselves with a warehouse shop, supplying all of Canada with art supplies. The Kings have some advice for anyone looking to start a business in our area; "Don't put yourself in a box. Don't let others define your vision. When you have a dream, go for it! Call us, we are here to help!"
