

Penny Tremblay

Penny
Tremblay

East Ferris resident Penny Tremblay is a Workplace Relationships expert, Founder of the Tremblay Leadership Center, and the Workplace Sandbox System™.

A typical work week spanning the province has shifted to a hybrid of both in-person and virtual programs. “People need peaceful, productive work teams more than ever right now” Tremblay says, “and the opportunity to serve in and from my own home town is exhilarating. Over the years I have learned the pain points felt by people, the systemic causes of workplace conflict, and their solutions”. Penny Tremblay’s Sandbox System™ is a process that resolves conflict first, then builds leadership capacity with training for the entire team.

“I am so grateful to call this community home, and I feel blessed everyday for the clean air, water and land that we have to enjoy especially during this pandemic. As an entrepreneur for decades, I value shopping locally wherever possible, and keeping the most money within our own area as possible”. Penny facilitates sessions for businesses in both the public and private sectors and across the entire range of numbers of employees. Contact her today to see how your workplace can benefit from her positive influences.

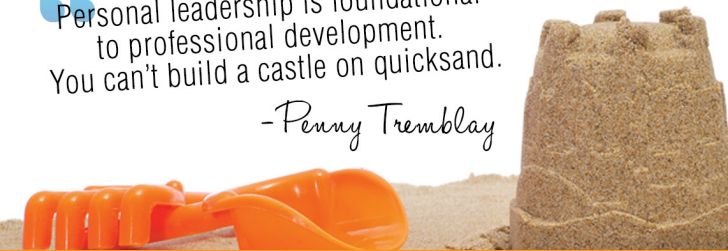

One of her top three aspirations is to acquire lake front property for her Peace Logde, in East Ferris, where groups (and families) can come for resolution, restoration and relaxation.
