A public hearing was held on an application submitted by Miller & Urso Surveying Inc. on behalf of Perron Properties Inc. and Daniel and Linda Mercier requesting permission from the Committee to modify the zoning to line up with the proposed land swap. Currently 1163 Village Road is zoned General Commercial (C1) and 1177 Village Road is zoned Hamlet Residential (RH). If the land swap is approved, the proposed lands being taken from 1163 and merged with 1177 would be changed from C1 to RH and the proposed lands being taken from 1177 and merged with 1163 would be changed from RH to C1. This application is in conjunction with Consent applications B-2021-45 and B-2021-46 and would keep the zoning consistent with the property boundaries.

The North Bay Mattawa Conservation Authority commented that there is no historical septic installation record but had no concerns for installation in the future.

No public comments were received at the public hearing and the application was approved.

b) File No. C-2022-01 Applicant: Degagne & Lefebvre Building Group on behalf of Steve Brunette – Vacant Land Highway 94

A public hearing was held on an application submitted by Degagne & Lefebvre Building Group on behalf of Steve Brunette requesting permission from the Committee to rezone the property from Rural (R) to Light Industrial (M1) in order to permit the construction of a large garage to store equipment with possible plans to build a future home as an accessory dwelling unit.

Mr. Lefebvre advised that the applicant would like to consolidate the machinery he uses for his business and eventually build a home on the property.

The North Bay Mattawa Conservation Authority advised that a DIA permit would be required for any construction with 30 metres of the stream at the front of the property. They have no concerns of a suitable septic location.

The driveway location is flat and straight so there are no concerns with the entrance.

No public comments were received at the public hearing and the application was approved.
