

Public Announcement

November 15/21 ICIP Funding Announcement: East Ferris Community Centre East Ferris, ON

We would like to take this opportunity to thank the Federal Government and Province of Ontario through the Investing in Canada Infrastructure Program (ICIP) for supporting our application for funding for renovations at the East Ferris Community Centre. The \$100,000 investment will assist the municipality to repair the bow string roof truss system above the ice surface. Repair of the trusses will extend the life of the roof structure for decades and will address safety concerns. This project would not have been possible without this investment.

The East Ferris Community Centre is a place where citizens, families and visitors gather to participate in a variety of recreation, sport, and social activities. It features an ice surface for hockey, ringette, figure skating, public skating, and off-season use such as pickleball; a curling rink; a hall for special events; and a full-sized commercial kitchen. The East Ferris Community Centre contributes to the physical, and mental health and well-being of our citizens and provides a safe space where residents of all ages and abilities can enjoy recreation in East Ferris year-round.
