

Section 10 – Special Zones

10.1 Permitted Uses

No *person* shall, within any Special Zone, *use* any *lot*, or *erect*, alter, or *use* any *building* or *structure* for any purpose other than as permitted in the specific provisions of the special zone, as stated in this section.

10.2 Special Zones Explanation

Special Zones are zoning classifications that are implemented on a case by case basis to alter provisions contained within the base zone category. The permissions in special zones vary from zone to zone. This by-law carries over special zones that were passed under by-law 1284, the previous Comprehensive Zoning By-law. Generally special zones use a naming convention that is based on the implementing by-law number paired with the base zone short form lettering.

10.2.1 Resort Residential Special Zones:

By-law 2021-60 removed the Resort Residential zone from By-law 1284 as a zone category. As a result all 'Resort Residential Special' zones have been converted to 'Lakefront Residential Special Zones'. For the purpose of this by-law, any reference to Resort Residential Special in historic by-law schedules or documents included in this by-law shall be deemed to refer to the Lakefront Residential Special Zone in this by-law.

10.2.2 Agricultural Special Zones:

By-law 2021-60 renamed the Agricultural zone from By-law 1284 to the 'Rural' Zone. As a result all 'Agricultural Special' zones have been converted to 'Rural Special Zones'. For the purpose of this by-law, any reference to Agricultural Special in historic by-law schedules or documents included in this by-law shall be deemed to refer to the Rural Special Zone in this by-law.

10.2.3 Base Zone Applicable:

Unless otherwise stated, the base zone provisions will apply in addition to the special zoning provisions listed in all cases, except where the base zone provisions are specifically altered.
