5. PUBLIC HEARINGS:

File No. C-2021-02

Applicant: Miller & Urso Surveying on behalf of 1851477 Ontario Inc.

A public hearing was held on a Zoning By-law Amendment application submitted by Miller & Urso Surveying on behalf of 1851477 Ontario Inc. The applicant is requesting a Zoning By-law amendment in order to develop the property with a contractor's yard and associated business offices. The project would also include accessory buildings to store equipment and materials as well as self-storage units as part of a future phase of development. Mr. Miller spoke to the application.

The property is approximately 16.4 acres and is currently zoned Rural A and the applicant is seeking to rezone the property to a General Industrial Special Zone (M2S). The General Industrial (M2) zone permits a contractor's yard and business offices and all parts of the project would comply with the base zoning provisions associated with the M2 zone, with the exception of the additional request to allow self-storage units. The Special Zone component of the General Industrial Special Zone (M2S) would permit the addition of self-storage units as an additional permitted use on the property.

Mr. Miller advised there would be no outside storage with the self-storage units. There is a watercourse that runs through the middle of the property, so two entrances would be required. The Committee discussed the storage units. No traffic concerns were identified.

The North Bay Mattawa Conservation Authority has no objections, but advised a tributary of the La Vase River is found on the property. There is no floodplain mapping available for this tributary. Depending on the nature of development, a floodplain analysis may be required prior to a building permit being issued. Mr. Kirton advised a DIA permit may be required. Mr. Miller advised a Storm Water Management brief will also be required.
