

2023 SPORTS HALL OF FAME

LOIS & TERRY KELLY

BUILDER | BÂTISSEUR

Terry and Lois Kelly have a lifelong connection and a shared commitment to health, wellness and community service. They became vital figures in promoting health and fitness within East Ferris, not only leading by example, but dedicating their time and expertise to the well-being of others. Terry has dedicated years to teaching two fitness classes per week specifically tailored for seniors, providing a valuable service through the Victorian Order of Nurses (VON). These classes contributed significantly to the physical health of the community's seniors. In 2000, the Kelly's took on a role that would significantly impact the fitness landscape in East Ferris, the position of overseeing the newly constructed East Ferris Fitness Centre. Their dedication to the center and its mission has been unwavering, making them a critical force behind its success and sustainability over the past 23 years. The fitness centre provides access to a clean facility with quality modern equipment that is the cornerstone of health and fitness for many East Ferris residents. The community building role played by the Kelly's in this initiative cannot be understated.
